

ANUP MAHARJAN

Software Engineer | AWS | Serverless

Kathmandu, Nepal | anupmhrzn16@gmail.com | +977 9803874819 | linkedin.com/in/anup-mhr

PROFESSIONAL SUMMARY

Software Engineer specializing in TypeScript, Node.js, React and AWS, with experience building production-grade serverless, microservice and multi-tenant SaaS platforms. Experienced in system architecture, AI applications, cloud infrastructure, security and payment systems.

WORK EXPERIENCE & PROJECTS

Mid Full stack Developer

Ghum Nepal Innovation, Kathmandu, Nepal

February 2026 - Present

- Built production **SaaS and marketplace systems** using TypeScript, Node.js, GraphQL, React and AWS.
- Architected a **multi-tenant SaaS platform** with tenant-isolated data, subscription and entitlement management, billing, automated tenant provisioning and database migrations.
- Architected and shipped **ghumSign**, an e-signature platform with OTP-verified signing, PDF stamping, tamper-evident audit trails, document verification and Nepal NPKI/DSC certificate sealing.
- Resolved **15 security audit findings**, including a cross-tenant authorization vulnerability, and implemented centralized entitlement and product-access controls across the platform.
- Built an **Amazon Bedrock AI trip planner**, OpenSearch-powered property search, Stripe payment workflows, loyalty and coupon systems, and multi-channel notifications for the property marketplace.
- Owned **AWS infrastructure and CI/CD** using AWS CDK and GitHub Actions, while developing Next.js and React applications across the organization's products.

Full stack Developer

Palmmind Technology, Lalitpur, Nepal

November 2025 – February 2026

- Contributed to backend architecture and performance optimization, improving **API response times by 35%**.
- Reduced **Docker image size by 57%** and improved development and deployment efficiency.
- Integrated **10+ third-party APIs** and optimized shared modules and frontend performance, reducing page load times by **25%**.

Node Intern

Amnil Technology, Lalitpur, Nepal

January 2024 – April 2024

- Developed backend services with Node.js, Express.js and Botpress for chatbot workflows and automation, integrating 3+ external APIs for dynamic responses.
- Optimized database queries, reducing API latency by 15%.

EDUCATION

Bachelor in Information and Communication Technology

Virinchi College, AeU

May 2021 – May 2025

SKILLS

- Programming Languages: TypeScript, JavaScript, SQL, Python, Java
- Frontend Development: React, Next.js, Vite, Tailwind CSS, Apollo Client, Zustand, React Native
- Backend Development: Node.js, GraphQL, Apollo Server, Express.js, NestJS, REST APIs, Socket.io
- Databases: MySQL, Postgres, Mongo DB, Redis, DynamoDb, OpenSearch
- Cloud & DevOps: AWS Lambda, API Gateway, RDS, S3, SES, SQS, EventBridge, Bedrock, EC2, Firehose, Athena; AWS CDK, Serverless Framework, GitHub Actions CI/CD, Docker, Docker Compose
- Soft skills: collaboration, problem-solving, growth-mindset, communication
